

What is a Joint Venture Performance ?

When one artist and one person from another profession work together to make a performance on the stage of Cabaret der Künstler - Zunftthaus Voltaire.

How can I realize a Joint Venture Performance ?

If you need, you can use the equipment we have available: a sound system, two microphones and one video projector. You will have to organise all other materials yourself. With this performance, you will pay your dues to become a member of the guild at Cabaret der Künstler - Zunftthaus Voltaire, and you will be able to see ALL following Joint Venture Performances for free!

How do I apply ?

Take a pencil, a pen or a brush and draw a picture of a key moment in your proposed Joint Venture Performance on a vertical piece of A4 paper. Add handwritten notes next to the drawing so that we can easily understand what you propose (the title of the performance, your name, the type of profession you'd plan to work with, the duration of the performance and a short description or any other keywords). Scan it and attach it to the application form found here.

Who can apply ?

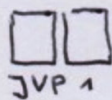

Anyone can apply, and everyone who realizes a performance will become a member. Cabaret der Künstler - Zunftthaus Voltaire will be Zurich's twenty-seventh guild, the first for artists, and the first in Zurich to be gender neutral.

Who will be selected ?

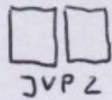

Anybody whose application fits within the guidelines of a Joint Venture Performance, who can realize their proposal with the equipment available, and who is willing to do so without a fee will be included in the schedule.

What will Manifesta 11 do with the applications ?

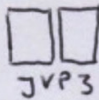

We will hang a selection of A4 pages (with drawings and descriptions) together with one photo taken during the performance on the walls of the Zunft Studio in the basement of Cabaret der Künstler - Zunftthaus Voltaire. This show will grow during the Biennial ! ... and will be an official part of Manifesta 11.
